WELCOME

Juan Carlos Salazar
Director General
Aeronautica Civil
de Colombia

Dear friends and colleagues,

ICAO, working hand in hand with industry representatives and governments, developed guidance documents in order to restore harmonization in international air transport.

Notwithstanding the challenge continues, taking into account that the capacity to implement recovery plans is uneven among different regions/states and that the financial effects will go beyond main industry players, to include aerospace industry, Airports, ANSP and civil aviation organizations and authorities (CAAs).

In this event, we seek to identify opportunities and experiences of working together as one team to restore confidence in civil aviation from the public, governments and health authorities in Latin America.

I would like to thank Hermes Organization, the University of the Aegean, and ALA for co-organizing this event.

WELCOME

Dr Kostas Iatrou
Director General
Hermes - Air Transport
Organisation

Dear participant,

Aviation has been globally facing its worst crisis since last year. With the vaccinations underway positive signs emerge and the economies around the world are preparing for a restart.

For this reason the theme of the event focuses on The Latin America Air Transport sector in the post COVID-19 era: Resilience and efficiency through Leadership and Cooperation. For the first time Hermes - Air Transport Organisation hosts an event in Latin America thanks to its cooperation with Aeronautica Civil de Colombia.

I would like to thank Juan Carlos Salazar, Director General of Aeronautica Civil de Colombia and Hermes member for co-organising this event; Professor Andreas Papatheodorou, Hermes Committee Member and the University of the Aegean, Greece for providing the Zoom platform; and finally ALA for being a media partner of the event.
